ABOUT ME

Barback turned software developer with over 100 hours self-taught and over 500 hours instructor led experience. Proficiency in HTML, CSS, and Javascript; along with technologies like React, Express, and Node. Experience working with a small, tight-knit team where communication and fluidity are key to success. Seeking to expand on my knowledge and to continue to grow as a developer.

EDUCATION

General Assembly

500+ hour course with instructor led and individual instruction, focusing on full stack development. We covered HTML, CSS, JS, Ruby on Rails, and SQL and noSQL databases.

PROJECTS

Project Manager

- Project Manager is an app that allows users to keep track of their project workflow for various projects. Users can interact with the project board and chat in real time. I used the PERN stack along with libraries like socket.io and ChakraUI to accomplish my goals.
  https://github.com/chuey619/project-manager

What Should I Watch

- A a team of three, we built an app that allows users to find movies and shows they can watch based on the streaming services they are subscribed to. What Should I watch is a full stack app using Express and React.
  https://github.com/chuey619/whatShouldIWatch

SmashTracker

- A full stack Express app that lets a user sign up and track their match history against other users in Super Smash Bros.
  https://github.com/chuey619/smashTracker

Pokemon Battles

- A browser based, turn based pokemon game that used HTML, CSS, and vanilla JS.
  https://github.com/chuey619/pokemon

SKILLS

- Javascript
- HTML/CSS
- Node.js
- Express
- Git/Github
- Yarn/NPM
- Bootstrap
- SQL(postgres)
- React

EXPERIENCE

Barback/Busser | Various

As a barback, I developed the skills needed to contribute to a team and communicate effectively. I was always the person the bartenders could look to for help with any given task. Flexibility was a necessity, as each day had a new set of challenges
